

COMMUNITY RELATIONS

Contacts With Students

The schools may communicate information through students regarding schools, school programs and non-school programs offered by nonprofit organizations that in the opinion of the principal have social, recreational or educational value to the students. Students will be encouraged to participate in the presentation of educational programs to the community. The effect on students of such communications and participation will be given paramount consideration. The principal will establish appropriate safeguards to prevent the exploitation of students by individuals or groups.

Any nonprofit group that seeks to distribute information about its program will submit a description to the superintendent describing the relationship of the proposed activity to the educational program.
